## Sunset Glow by BBW Type

We certify that the above mixture is in compliance with the Standards of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA), up to and including the 50th Amendment to the IFRA Code of Practice (published June 30, 2021), provided it is used in the following categories at a maximum concentration limit of

| Category     | Description                                                                                                                   | Limit %      |
|--------------|-------------------------------------------------------------------------------------------------------------------------------|--------------|
| Category 1   | Products applied to the lips                                                                                                  | Not approved |
| Category 2   | Products applied to the axillae (armpit)                                                                                      | 1.19%        |
| Category 3   | Products applied to body/face using fingertips                                                                                | 2.09%        |
| Category 4   | Products related to fine fragrance                                                                                            | 22.39%       |
| Category 5a  | Body lotions applied using the hands (palms), primarily leave-on                                                              | 5.72%        |
| Category 5b  | Face moisturizer applied using the hands (palms), primarily leave-on                                                          | 2.15%        |
| Category 5c  | Hand cream applied to the hands using the hands (palms), primarily leave-on                                                   | 3.87%        |
| Category 5d  | Baby product (creams, oils and talc)                                                                                          | 0.71%        |
| Category 6   | Products with oral and lip exposure                                                                                           | Not approved |
| Category 7a  | Rinse-off hair products applied with some hand contact                                                                        | 3.41%        |
| Category 7b  | Leave-on hair products applied with some hand contact                                                                         | 3.41%        |
| Category 8   | Products with significant anogenital exposure                                                                                 | 0.71%        |
| Category 9   | Products with body and hand exposure, primarily rinse off (soaps / scrubs / bath bombs)                                       | 12.23%       |
| Category 10a | Household care excluding aerosol / spray products                                                                             | 12.23%       |
| Category 10b | Household aerosol / spray products                                                                                            | 33.64%       |
| Category 11a | Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure        | 0.71%        |
| Category 11b | Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure | 0.71%        |
| Category 12  | Products not intended for direct skin contact, minimal or insignificant transfer to skin                                      | Not limited  |
